Nayara Energy Strengthens India's Clean Fuel Resilience with Major Vadinar Refinery Upgrade

Upgrade enables continuous production of BS-VI compliant diesel while strengthening reliability and long-term refining capability

Mumbai, 05 November 2026: Nayara Energy an integrated downstream energy and petrochemicals Company of international scale has commissioned its VGO-MHC (Vacuum Gasoil Mild Hydrocracker) Revamp Project at its Vadinar refinery, enabling 100% of its diesel production to continuously meet BS-VI standards**.** The upgrade strengthens the refinery's ability to reliably produce cleaner fuels and support India's growing energy requirements.

The project extends the unit's operating cycle by more than 150%**,** enabling longer periods between planned shutdowns and greater continuity of fuel production and supply. It also improves efficiency and crude processing flexibility, raising the refinery's Nelson Complexity Index to 12.6.

Commenting on the milestone, Sergey Denisov, Chief Development Officer, Nayara Energy said, *"Despite a challenging global environment, the project was successfully commissioned through a more self-reliant execution approach. This included the installation of a 1,435-ton reactor in a live refinery environment, underscoring Nayara Energy's ability to safely execute complex refinery upgrades at scale."*

These ongoing investments reinforce the Company's role as a reliable partner in advancing India's energy self-sufficiency, ensuring uninterrupted supply, and supporting the nation's long-term growth and prosperity.

About Nayara Energy

Nayara Energy is an integrated downstream energy and petrochemicals company with a formidable presence spanning across the entire hydrocarbon value chain, from Refining to Retail. Nayara Energy operates in India for India driven by a relentless commitment to fuel the nation's energy aspirations. At the heart of our operations lies the Vadinar refinery, India's second-largest single-site refinery with a capacity of 20 MMTPA. With over 7,000 Retail Outlets, we cater to the need for reliable and safe mobility across the length and breadth of the country. We have adopted a phase-wise asset development strategy and have forayed into the petrochemicals sector with a 450 KTPA Polypropylene plant which is a significant step in our crude to chemicals journey. Through sustainable development projects in Health and Nutrition, Education and Skill Development, and Sustainable Livelihoods, Nayara Energy enhances the quality of life in the communities it operates in. Delivering value for all our stakeholders is at the very core of our beliefs and we are committed to providing the energy that fuels the dreams of our employees, customers, partners and communities.
